PROFILE

Final-year Software Engineering undergraduate with First-Class academic performance in Years 1–2 and an HND in Business Management. Experienced in product discovery, customer research, prioritisation, Agile delivery and translating user needs into technical requirements. Combines technical understanding with business strategy, UX and data-driven decision-making to bridge engineering, design and customer needs. Hands-on with Jira, Figma, FigJam, Miro, Excel and Agile product workflows, seeking a Product Management role.

EDUCATION

Staffordshire University — Reading
BEng (Hons) Software Engineering — *2024 – 2027*

Pearson UK — Reading
HND Business Management — *2024 – 2026*

Certification in General Psychology — Honours
American College of Higher Education — *2023*

Certification in Media Presentation & Communications — Certified
Faizal Bongso Academy — *2023*

Cambridge International Education — Sri Lanka
Cambridge O/L — *2023*

KEY PROJECT EXPERIENCE

Kapruka - Post-Purchase Support & Resolution Experience — Product Management Case Study
Independent Product Management Case Study — *2026*

- Analysed **87 customer reviews in Excel** and **benchmarked competitors** to identify key post-purchase **pain points**.
- Used **5 Whys, JTBD and RICE** to prioritise the highest-value post-purchase product opportunity.
- Designed **high-fidelity Figma screens, FigJam/Miro flows** and **UML activity diagrams,** validated through **usability testing.**
- Created **Jira epics, backlog, user stories and acceptance criteria** for the proposed solution.

"BusLink" Smart Bus Reservation System (*First Class*) — Staffordshire University
Product Manager & Business Analyst - 3-Sprint Agile Capstone Project — *2025 - 2026*

- Led discovery using **102 surveys, 10 interviews, competitor analysis, stakeholder mapping, 5 Whys, product roadmapping and MoSCoW.**
- Built **personas, roadmap, feature priorities, wireframes, UML Activity Diagrams (Draw.io)** and **business/revenue models**.
- Led a cross-functional team through 3 Agile sprints using Trello Kanban, GitHub and Notion as Scrum Master/BA.
- Supported **Flutter, Firebase, Stripe and Vercel** delivery, QA, security testing and bug resolution.

Lassana Flora - Singapore Market Entry Strategy — Pearson UK
Individual Research Report (Distinction) — *2026*

- Analysed Singapore market-entry viability using **PESTLE, SWOT and Yip's Globalisation Drivers**.
- Designed a digital B2B platform, localized ERP modules, and PayNow/GrabPay integration.
- Formulated mitigation plans for **biosecurity compliance, supply chain risks** and **currency volatility**.

CORE SKILLS

- **Product Strategy:** Market Analysis, Product Roadmapping, Stakeholder Management, Competitive Analysis, PESTLE, Prioritization Frameworks (MoSCoW, RICE).
- **Execution & Delivery:** Agile/Scrum/Kanban, Sprint Planning, Backlog Management, Requirements Analysis, User Stories & Acceptance Criteria, Cross-Functional Team Leadership
- **UX/UI & Product Design:** User Research, Persona Development, Wireframing & Prototyping (Figma), Usability Testing, User Flows
- **Data & Analytics:** Excel, Survey & Interview Analysis, Quantitative Research, Customer Feedback Analysis, Data-Driven Decision-Making
- **Technical:** AI-Assisted Full-Stack Development using Flutter, Laravel/PHP, Firebase, MySQL and REST APIs; Stripe Integration, Technical Requirements Translation, Manual QA & Test Cases; delivered First-Class academic builds using AI development tool Antigravity
- **Tools:** Jira, Figma, FigJam, Miro, Trello, GitHub, Draw.io, Excel, Vercel, Notion AI Tools (ChatGPT, Codex, Claude Code, Gemini, GitHub Copilot)
